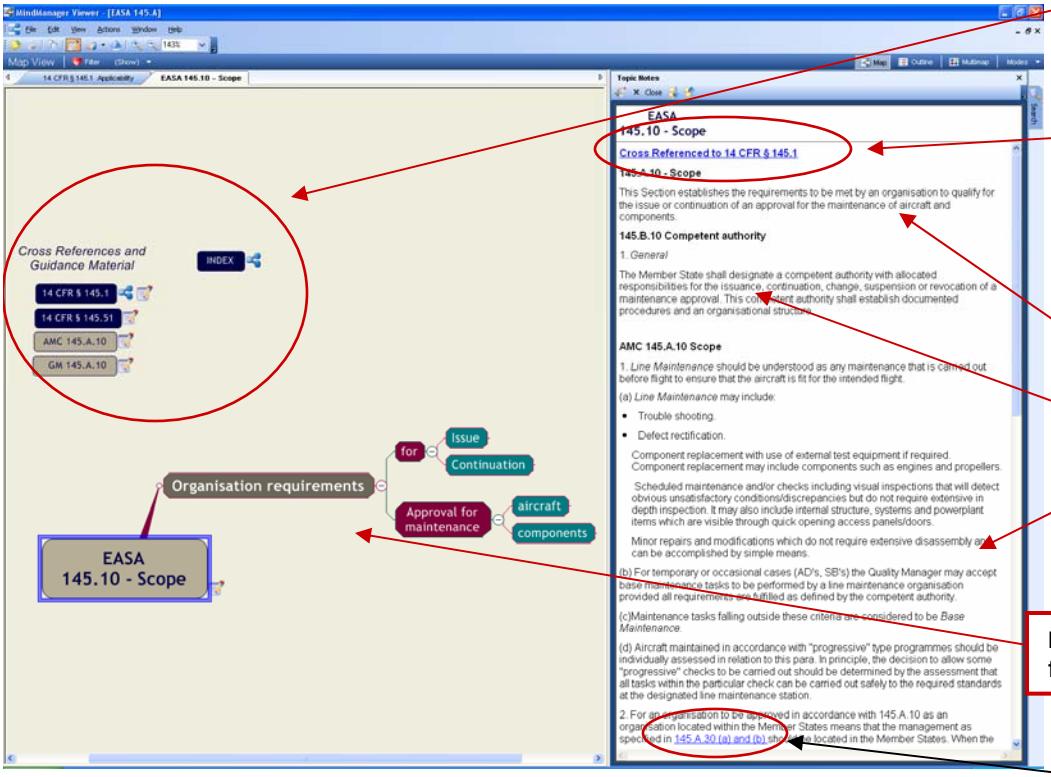
Reg-U-Metrics®

You can actually display a mind map of the EASA requirement and simultaneously display the corresponding FAR requirement on the right or mix and match guidance material or regulatory information as required! You may select any requirement from the main index page (not shown).



Cross-reference and guidance information

Linked to cross referenced FAR requirements which can be displayed on this same page

Full Text inclusive of Part B plus all AMC and GM on the Same Page

Mind map of the requirement for better understanding

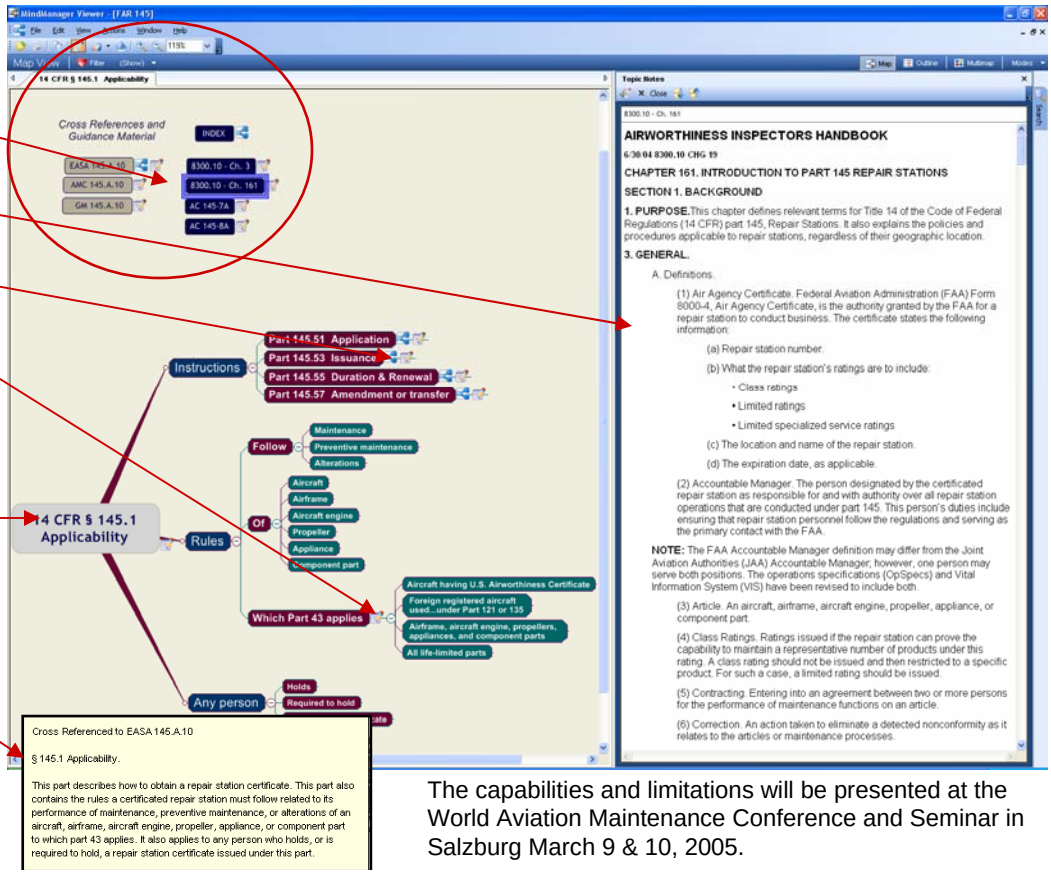
Links to other regulatory requirements

Cross-referenced and guidance information with Order 8300.10 - Ch:161 selected and displayed on right

Links to other requirements

Mind map of 14 CFR § 145.1 requirement

Or you may mouse over any note icon to bring up the text of that requirement in a special note box in addition to what is presented here.



The capabilities and limitations will be presented at the World Aviation Maintenance Conference and Seminar in Salzburg March 9 & 10, 2005.
